## **MGCC Board Meeting, June 16, 2020**

In attendance: Doug & Linda Gilbert, Bill & Sandy Ruch, Kristie Sweet, Bill & Karen Amman, John & Cynthia Lucke.

Discussed funding. The only income we will have this year are dues. Bill A. will send out an email reminder. Dues can be mailed directly to Doug. We will need to cut back on who we send checks to this year. Priorities will be food banks and families in need.

Other costs involve the trailer. It needs to be licensed and insured. We will see what we can do to save cost on the electrical repair.

We will not have any club meetings this year. We feel this is best for the safety of our members.

We will keep the same board. No need for elections since nothing going on this year.

We will schedule picnics and outings that will provide social distancing. Suggestions are requested.

Rissa has offered her home for a picnic. Linda will speak with her and schedule that.

Trip this Friday, June 19th to Village Concept Harbor Tower. Drive through for tenants.

Other suggestions:

Doyle's parking lot, park cars to support him.

Picnic at Washington Park.

Linda & Doug's house.

Movie night at someone's yard. Linda will check with Bryan.

Linda will check with Max Dale's to see if they are scheduling for Christmas. The Christmas Party is tentative depending on the situation at that time.

**Harbor Village Tour:**

On Firday, June 19, 11 cars met at Frontier in Oak Harbor to do a cruise to Sandy's work place to show our cars to the residents.

I think the young lady (who could barely see over the steering wheel in the image on the right below) is about to take off with the Bloom's C7 convertible!

After showing out cars, Bill Ruch led a tour to the west side of Whidbey Island. Everyone had a grand time (especially the seniors) and enjoyed the opportunity to get out and enjoy some fresh air.

## Member Profile:

### MGCC Club Secretary Kristie Sweet, member since 2016

I grew up in a hot rod house. There was always a hot rod in the garage. So of course, my first car was a hot rod 1973 Nova.

Once I had kids, they grew up the same way with hot rods in the family and car shows all summer.

My first Corvette was a 1981 black on black coupe. This is what a Vette was to me. I still have this car. My newest Corvette is a white 2017 Stingray convertible.

There will always be hot rods and Vettes in my garage.

### 2022 Corvette C8 Z06 Prototype Shows Exotic Rear Wing, Huge Tires

Now that the Corvette C8 Stingray has been launched, the Chevrolet Corvette team is turning its attention to the next variant of the mid-engine sports car: the mighty Z06. Luckily, our spies just caught a prototype of what's believed to be the Corvette C8 Z06 as it was undergoing testing, with the development model showing several noteworthy features. Arguably the most eye-catching element of this Corvette C8 Z06 prototype is the prominent rear wing.

## Fight for Your Right to Race! EPA Race Car Ban 2020 Update

"The RPM Act of 2019 (H.R. 5434/S. 2602) is common-sense, bi-partisan legislation to protect Americans' right to convert street vehicles (cars, trucks and motorcycles) into dedicated racecars and the motorsports-parts industry's ability to sell products that enable racers to compete. The bill clarifies that it is legal to make emissions-related changes to a street vehicle for the purpose of converting it into a racecar used exclusively in competition. It also confirms that it is legal to produce, market and install racing equipment.

The RPM Act reverses the EPA's interpretation that the Clean Air Act does not allow a motor vehicle designed for street use—including a car, truck, or motorcycle—to be converted into a dedicated racecar.

In 2015 the EPA took the position that converted vehicles must remain emissions-compliant, even though they are no longer driven on public streets or highways. Although the EPA did not finalize the proposed rule, the agency still maintains the practice of modifying the emission system of a motor vehicle for the purpose of converting it for racing is illegal. Manufacturing, selling and installing race parts for the converted vehicle would also be a violation. The EPA has also announced that enforcement against high performance parts—including superchargers, tuners, and exhaust systems—is a top priority for 2020.
