## Corvette Z06 Chosen as Pace Car for the Indianapolis 500

For the 20th time since 1978, a Chevrolet Corvette will pace the field for the Indianapolis 500 this year. It's the 34th Chevrolet to pace the Indy 500, dating back to 1948. This year's Z06 pace car features a Red Mist Metallic exterior paint, a two-tone Jet Black and Sky Cool Gray interior with Torch Red accents, and forged aluminum wheels finished in Tech Bronze. It's powered by a 5.5-liter LT6 engine with 670 horsepower, making it the highest-horsepower naturally aspirated V-8 engine ever to hit the market in a production car. It'll be the first hardtop convertible version of the Corvette to pace the race.
